CITY RIDGE, WASHINGTON D.C.

- New flashing and apron installation
- Slate installation on four new dormers
- Installed overhead protection

Durable Slate was responsible for installing new flashings and reclaimed Buckingham slate onto four newly built dormers, as well as new apron flashing for reach of the original dormers. We were also responsible for installing roof “scaffold” below the remaining dormers and overhead protection for the workers below.

02

ST. JOHN'S COLLEGE, ANNAPOLIS, MD

- Flat-seam copper dormer replacement
- Buckingham slate roof repair
- New copper gutter system

Randall Hall was built in 1903 and was designed by T. Henry Randall, the son of Alexander Randall who built 88 State Circle in Annapolis, MD. Durable Slate was responsible for installing 20 oz copper flat-seam upon the dormers, flashings, and slate repair.
